SECTION 11 66 10

FITNESS EQUIPMENT

---

**PART 1 - GENERAL**

1.1 SUMMARY

- A. Section Includes: Install Owner furnished fitness equipment; provide accessories as required for complete finished operational installation and not furnished with fitness equipment.
- B. Related Sections:
  - 1. Section 01 10 00: Owner furnished, Contractor installed requirements.
  - 2. Division 26: Hard wiring and junction boxes as indicated on electrical Drawings.

1.2 ADMINISTRATIVE REQUIREMENTS

- A. Coordination: Coordinate fitness equipment with other work including but not limited to electrical supply locations for fitness equipment.
- B. Pre-Installation Meeting: Convene not less than one week prior to commencing work of this Section. Require attendance of those directly affecting work of this Section.
  - 1. Review installation procedures and coordination required with related work.
- C. Scheduling: Schedule installation of fitness equipment as late as possible to prevent damage by other trades.

1.3 DELIVERY, STORAGE, AND HANDLING

- A. Receive and inspect Owner furnished fitness equipment in manufacturer's undamaged protective containers, after spaces are ready to receive them.

**PART 2 - PRODUCTS**

2.1 EQUIPMENT

- A. System Description: Install Owner furnished fitness equipment; provide accessories required but not furnished with fitness equipment.
  - 1. Accessories: Provide as recommended by fitness equipment manufacturer and as required for complete operational installation.

**PART 3 - EXECUTION**

3.1 EXAMINATION

- A. Examine surfaces to receive fitness equipment specified.

- B. Verify dimensions of in-place and subsequent construction.
- C. Installation of fitness equipment constitutes acceptance of adjacent conditions.

### **3.2 INSTALLATION**

- A. Install fitness equipment in accordance with manufacturer's recommendations and as required to comply with official competition rules as directed by Owner.
- B. Install fitness equipment straight and true, and in correct relationship with adjacent materials and equipment.
- C. Coordinate with electrical trades as necessary for proper service connections.
- D. Ensure operating parts work freely and fit neatly.

### **3.3 FIELD QUALITY CONTROL**

- A. Site Tests: Test operation of equipment and make necessary adjustments.

### **3.4 ADJUSTING**

- A. Adjust hardware and moving parts as necessary.

### **3.5 DEMONSTRATION**

- A. Instruct Owner's personnel in proper operation and maintenance of fitness equipment.

### **3.6 PROTECTION**

- A. Protect fitness equipment until Substantial Completion.
- B. Repair or replace damaged parts, dents, buckles, abrasions, or other defects affecting appearance or serviceability, so fitness equipment is undamaged at time of Substantial Completion.

**END OF SECTION**
